Friday 14th March 2025 / Friday 10th October 2025

Cost: £135 per day; £375 three days

The Ei SMART Framework – Foundation Level Training

Friday 7th March 2025 / Thursday 2nd October 2025

Venue: 1 day Online 9.00am – 4.30pm Cost: £135

This is our recommended Foundation level training before progressing to our Implementation days. The content is aimed specifically at doctors, nurses, therapists and everyone who is interested in neurodevelopment and early intervention right from the NNU to the community.

Ei SMART is a framework for clinical reasoning based on evidence-based principles to give high risk babies the best start in life. It spans infant development from birth, to pre-school and beyond. It uniquely supports infant development by integrating Sensory, Motor, Attention and regulation and Relational development through co-production between multi-disciplinary healthcare professionals and parents working Together.

This study day is co-developed and presented by our team of therapists, (OT, PT, SLT), Nursing and medical practitioners, and parents with lived experience of having babies and young children with developmental differences and challenges.

Course Content

Evidence for why you should use the Ei SMART holistic framework in early intervention.

How co-production is embedded within the Ei SMART approach.

Expand your skills and knowledge as you learn to focus on the relative contributions of, and the importance of the inter-relationships between Sensory, Motor, Attention & Regulation and Relationships – Together.

Implementation of the Ei SMART Framework Study days

Thursday 13th and 14th March 2025 / Thursday 9th and 10th October 2025

Venue: Online 9.00am – 4.30pm Cost: £135 per day

Two separate, but complimentary study days suitable for doctors, nurses and therapists who have a good understanding of the Ei SMART framework and want to begin to implement it in the **Neonatal Unit** and/or in **community settings**, bridging the gap between hospital and home.

These implementation workshops are co-produced and delivered by our team of therapists, (OT, PT, SLT), Nursing and medical practitioners, and parents with lived experience of having babies and young children with developmental differences and challenges.

Implementing the Ei SMART framework in the Neonatal Unit.

Thursday 13th March 2025 / Thursday 9th October 2025

Venue: Online 9.00am – 4.30pm Cost: £135 per day

Course Content

Learn about the application of the S, M, A, and R, in the NNU and working Together with parents in co-production and partnership.

Consider how the Ei SMART framework could be incorporated into daily/weekly ward rounds/systematic reviews and how the use of this framework would influence your conversations with parents and your team.

Discuss how to use the Ei SMART approach to bridge the gap between hospital and home.

Learn how to use the Ei SMART framework to co-produce goals in partnership with parents.
