OUR MESSAGE TO BABIES

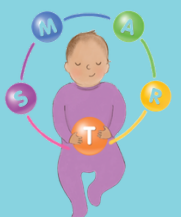

We will help you:

-  To feel joy in sensation, particularly through touch, to successfully interpret the world around you;
-  To move and explore in a secure and supportive space;
-  To learn to sleep deeply, grow strong, communicate, eat, play and have fun, while being co-regulated and feeling deeply connected;
-  As you are embraced with skill and confidence by your family;
-  And are supported in all of this as we work together.

OUR MESSAGE TO PARENTS

- We promise to always start with what your baby can do;
- We will give you hope; we will call you by your name;
- We will balance fun with challenge when helping your baby achieve their next goal, because we know that babies learn best when they are relaxed and happy.
- We will embrace you as the expert on your baby and we will work with you in partnership, enjoying and taking pride in your baby's developmental journey.
